INFORMATION REGARDING YOUR ROAD TEST AND PROOF FOR INSURANCE COMPANY

CONGRATULATIONS on completing your course with TheDrivingSchool.ca. It was a pleasure getting to know you and teaching you the rules of the road. Now the real challenge begins!

CERTIFICATE:

Paper certificates are no longer handed out by the driving schools. We will register you with the MTO during your last in-car lesson. (if as long as all fees are paid and there are no outstanding memory cards owing)

When you get home, you can book your test. I recommend booking your road test online; you can find the link from my website under "HELPFUL LINKS"

PROOF OF COMPLETION FOR YOUR INSURANCE COMPANY:

When your insurance company asks you for proof of completion, you need to go to any Service Ontario office and requesting a **DRIVERS LICENSE HISTORY** at a cost of \$12.00. **THIS IS THE FORM YOU GIVE TO YOUR INSURANCE COMPANY.** Remember you CANNOT drive home with your G2 unless you added insurance to your vehicle.

DAY OF YOUR TEST:

- On the day of your road test, arrive approx. 30 minutes prior to the road test time. Make you sure you know your license plate #, make and color of your vehicle you will be tested in as they will ask you for this information. Also make sure your vehicle will pass the Drive Test Standards, for example, any cracks in the window can be a reason for a "non-fit" vehicle and you will not be able to take your test). *Visit www.drivetest.ca for additional information.*

- We will register you on-line with the MTO, it will show in the Drive Test's system. **You do not need to bring any documentation / proof of completing from our driving school to your road test.**

RECOMMENDATIONS FOR PARENTS:

Limit friends allowed in the vehicle. (Ensure they read the back of the G2 Temporary license)

Set rules and make sure you enforce them as a new driver needs to understand the consequences of their actions.

Remember that any "at fault" crashes or tickets will result in an insurance premium increase and that can affect all of your vehicles at home.

If the student was not able to take advantage of winter driving during their course, winter driving lessons are also available when the snow hits the ground. Just call your instructor to schedule a lesson. Winter driving lessons will be 1.5 hours in length and will cover the following: driving in adverse weather, ABS (or non ABS), how to avoid a skid and space management. If interested, please inquire for current rates.

Well, as mentioned before, the adventure begins. The first 6 months are likely to be challenging as new drivers continue to gain experience. Remember that my phone is always on if you should have any questions or concerns.

We wish you the best.
